About us

For more than 93 years, First Battery has been a globally leading battery manufacturer. Today we produce over 2.2 million batteries per year for the domestic and global market. Our innovative fully framed grid system, bespoke to our batteries, ensures increased durability, longer lasting power, and reliability which is why we are an OEM approved battery supplier. Our commitment to the environment means that our batteries are 96% recyclable.

Find Your Battery

Our battery finder makes it easy for you to find the right battery for the right vehicle, every time. When you need help with finding a new battery, Visit www.batteryfinder.exide.co.za

ENDURO 36 Months Warranty

This is our premier battery, specifically designed for modern start/stop vehicles. The EXIDE Enduro offers exceptional performance and reliability. It's advanced Absorbed Glass Mat (AGM) technology ensures longer service life, superior cycling capabilities, and enhanced durability, even in the most demanding conditions.

NANO EFB 24 Months Warranty

The EXIDE Battery is a world-class Lead Acid battery manufactured with an innovative fully framed grid technology for superior performance. This series represents a versatile and dependable choice of OEM approved battery for a wide range of vehicles. The EXIDE battery is trusted for reliability, durability and strong cranking power.
